

ENGINEER THE IMPOSSIBLE

BROCHURE
2025-26

ABOUT US

Founded in 2017, CSD Robocon NITK is the college's official robotics team. As a group of interdisciplinary undergraduates mentored by Dr Gangadharan KV and Dr Pruthviraj U at the Centre for System Design at NITK Surathkal, we aim to win the Grand Prix at the prestigious ABU Robocon.

CSD Robocon NITK 2025

OUR VISION

Our vision is to establish a thriving robotics culture within our college and to be recognized as one of the best teams in the international arena, starting with the ABU Robocon. Despite the competition posed by leading teams from Vietnam and Japan, we are determined to showcase our passion and capability in robotics.

**WE BUILT

BASKETBALL
PLAYING ROBOTS**

ABU ROBOCON

Started in 2002 by the Asia-Pacific Broadcasting Union, the ABU Robot Contest themes the host country's traditional sport annually. Undergraduate college teams worldwide build two robots for one-on-one matches in pursuit of winning the tournament.

1000+

Television
by ABU

2025

Hosted by Mongolia, this season's theme was Robot Basketball. Two robots had to play basketball against two opponents, with a slightly modified ruleset, that was made around the bot's capabilities. The team with more points at the end of a 120 seconds long match won.

SEASON 2025

2025 marked an important milestone in the journey of CSD Robocon NITK. We qualified for the Nationals consecutively for the third time. We proudly represented NITK at DD Robocon 2025 at IIT Delhi.

Through every challenge, our team's spirit never wavered. We're proud to have earned a top 20 national ranking, and this journey has made us stronger than ever for the future.

WORKSHOPS- EXPOS

₹ 10,000

EQUIPMENTS

₹ 50,000

ELECTRONICS

₹ 2,00,000

₹ 8 Lakh

KUNG FU QUEST

THEME FOR SEASON '26

The ABU Robocon 2026 theme, "**Kung Fu Quest**," challenges teams to merge martial arts principles with modern robotics. Each team must build two robots that cooperate with balance and harmony, like kung fu partners. These robots will navigate a "**Meihua Forest**" to collect scrolls and also construct symbolic weapons, testing their agility and precision. The competition ends in a strategic duel where the collected scrolls are used to play a game of tic-tac-toe, emphasizing focus and teamwork.

OUR GOALS FOR '26 SEASON

- We aim to design and build innovative, efficient, and reliable robots that can meet every challenge and achieve a podium finish in ABU Robocon 2025.
 - By integrating advanced technologies like AI, computer vision, and smart sensors, we strive to enhance the performance, accuracy, and intelligence of our robots.
 - Building lasting partnerships with sponsors is a priority, along with promoting robotics awareness through workshops, demonstrations, and community outreach programs.
 - Upholding our motto, "Engineer the Impossible," we are dedicated to pushing boundaries, exploring bold ideas, and setting new benchmarks in innovation and creativity.
- 

WORKSHOPS – EXPO

Apart from building robots for competitions, we also love sharing our passion with others. Our team conducts workshops in schools where we introduce students to the basics of robotics in a fun and hands-on way. The idea is to spark curiosity, show them how exciting technology can be, and hopefully inspire the next generation of innovators.

SHOWCASING OUR BOT AT ENGINEER 2024

HOW YOU CAN **HELP US**

FINANCIAL SUPPORT

Your financial support helps us buy top-tier components and cover competition fees

TOOLS / INKIND SUPPORT

Donations of services or machinery directly enhance our manufacturing process.

KNOWLEDGE / EXPERTISE

Your guidance and mentorship are invaluable in developing our team's expertise and shaping our future.

PROMOTION / REFERRAL

Your financial support helps us buy top-tier components and cover competition fees

All payments made to CSD Robocon NITK are subject to **80G 100% Tax Deduction**

SPONSORSHIP TIERS*

BRONZE

₹ 10,000

- Logo sticker on one robot
- Shoutout on CRN socials
- Logo on the CRN official site
- Monthly update on all CRN activities

SILVER

₹ 40,000

- Logo stickers on both robots
- Shoutout on CRN socials
- Logo on jerseys and merchandise
- All Bronze benefits

GOLD

₹ 80,000

- Bimonthly shoutout on CRN socials
- Video about the company on CRN socials
- 3D printed logo on one robot
- Logo on banners at national and international events
- Shoutout during national and international events
- Custom 3D figurine as a token of appreciation
- All Silver benefits

PLATINUM

₹ 1.5 Lakh

- Title Sponsor designation (mentioned on socials and website)
- Naming rights for one robot
- 3D printed logo on both robots
- Logo in the CRN lab throughout the season
- All Gold benefits
- An added year of Silver benefits

All payments made to CSD Robocon NITK are subject to **80G 100% Tax Deduction**
